PROFESSIONAL SUMMARY

Business development and research consultant with a creative background, working part-time on retainer for an Omani holding and venture company where I produce feasibility studies, verified research notes, investor presentations, and partnership proposals, and build the brand and documents that carry them. The same skill set serves industrial clients directly: partner-facing investment presentations, company profiles, and rebrands. Underneath it sit 5+ years in brand identity, graphic design, paid social, and web development, plus a Computer Science degree. Arabic native, English professional, based in Oman and open to remote work.

CORE SKILLS

Business Development & Research: Market and feasibility research, source verification, financial and technical document review, investor presentations, partnership proposals, scope-of-work and NDA drafting, counterparty coordination

Brand & Investor Communications: Brand identity and logo systems, brand guidelines, document house styles, pitch decks and company profiles, bilingual Arabic and English materials

Design: Graphic design, Adobe Photoshop, Adobe Illustrator, Canva, social media graphics, infographics

Web & Software: HTML, CSS, JavaScript, Python, SQLite, Git, VS Code, business websites, landing pages, desktop tools

Marketing: Social media management, Meta Ads (Facebook and Instagram), Google Ads, content strategy, campaign management

Video & Editing: Adobe Premiere Pro, short-form editing (Reels, TikTok), AI video generation (Kling, Google Veo 3, Seedance, Nano Banana)

Languages: Arabic (Native) · English (Professional, DET Score 120)

PROFESSIONAL EXPERIENCE

Business Development and Research Consultant · RSD · Oman / Remote 2026 to Present
Part-time retainer for an Omani holding and venture company active in mining, investment, and industrial technology. Cover business development, research and analysis, and branding and communications.

- Co-produced a Level 2 feasibility study for a greenfield urea and ammonia project at Duqm, with investor presentations, a port and logistics note, and a technical response to an external reviewer
- Research notes for the founders on gas monetisation options, industrial minerals, an AI and data hub, and agriculture in southern Oman, each verified against primary sources and delivered as branded PDFs with supporting Excel models
- Ran a European buyer-matching workstream for a gypsum export opportunity, identifying and profiling eleven target companies with verified contacts and outreach materials
- Drafted a partnership proposal and mutual NDA for bringing a German AI company into Oman's public and enterprise sectors, and helped coordinate an international investor meeting for the Duqm project
- Built the company's brand from the name up: naming, brand guidelines, a document house style, a research report pipeline, and the company website, which I designed and built: rsd.services

Brand and Investor Communications (Freelance) · Nusail Trading & Contracting 2026
Sohar-based industrial waste management and logistics contractor serving OQ, Sohar Aluminium, and other anchor clients.

- Prepared the partner-facing investment presentation, company profile, speaker notes, and a growth roadmap built from the company's 39-contract register, ahead of a strategic partnership presentation
- Developing the company's rebrand: logo directions, bilingual Arabic and English lockups, palette, type, and application mockups

Founder and Creative Lead · Al-Muneer Agency · Sohar, Oman 2026 to Present

Boutique digital marketing agency serving food and beverage, hospitality, and real estate clients in Oman, with web design work reaching clients in Germany.

- Built the agency's own brand identity and portfolio website, then took on client brand identities and content strategies, including two food and beverage brands (Hungry Station and Al Saaj Breakfast)
- Produce AI-enhanced commercial reels for clients, combining live footage with generated video for a date gelato brand and a luxury residential real estate project
- Write and submit web design and marketing proposals for clients in Oman and Germany, managing each project from brief to delivery

Web Developer and Designer · Freelance · Remote 2022 to Present

Design and build websites and small software tools for clients alongside my agency and consulting work.

- Build business websites, landing pages, and portfolio sites in HTML, CSS, and JavaScript, handling design, code, and deployment end to end
- Built a clinic management system for a private medical clinic in Oman, migrating roughly 20 years of records (about 20,000 patients and 40,000 visits) from a DOS-era program into a modern desktop application with patient registration, consultation, prescribing, audit logging, and networked printing

Head of Advertising and Marketing · Rif Majan · Sohar, Oman 2024 to 05/2026

In-house creative lead for two restaurant branches. Came in with nothing and built the full brand identity and content operation from the ground up.

- Designed the complete brand identity from scratch, including logo, menus, packaging, and all branded materials across both locations
- Shot, edited, and produced all video content, from Reels and promotional videos to product highlights and behind-the-scenes footage
- Created and managed all social media across Instagram and Facebook, keeping the voice and visual style consistent
- Grew a managed Instagram account from 26.1K to 368.2K monthly views in 30 days, a 14x increase, through a targeted paid campaign
- Ran Meta ad campaigns, redesigning the creatives and tightening targeting to a 15km radius, bringing cost per click down 35% while exceeding reservation targets on a reduced budget

Marketing Manager · Roaya Optical Center · Egypt 2023 to 2024

Marketing role focused on growing the brand's presence across multiple locations in the region.

- Produced all the promotional materials and visual assets used across their marketing campaigns
- Organised events and outreach campaigns that grew awareness and brought more customers through the door

Social Media Specialist and Content Creator · ECHO Media Production Agency · Egypt 2021 to 2023

- Took projects from brief to delivery: scriptwriting, pre-production, shooting, and editing
- Got to know each client's brand well enough to create content that actually felt like them, not just generic posts
- Juggled several accounts at once and still hit deadlines consistently

Digital Marketing Assistant · Arrow for Advertising · Egypt 2019

- Helped run digital marketing campaigns across social media and paid platforms for a range of clients
- Supported social media account management and helped improve engagement across several brands

EDUCATION

M.E.T Academy, Egypt · Bachelor's Degree in Computer Science, 2022

ADDITIONAL INFORMATION

Certification: Duolingo English Test (DET), score 120

Location: Sohar, Sultanate of Oman, fully open to remote work worldwide
